

# The right operation?

## Reach your manufacturing goals with us.

With extensive experience in all areas of manufacturing, Locate in Kent can provide a bespoke package of support that will help you set up or grow production. The added value we provide will help your business to achieve its goals.

We provide access to free impartial advice from people who know the industry inside out and will help to troubleshoot any challenges you face and provide a route to build your success here in the county.

### WHAT WE OFFER

Locate in Kent offers a range of services to manufacturers of all sizes. Our specialist support will help you set up or expand your facility, establish effective local supply chains, or develop the skills of your workforce.

Our service aims to support Kent-based manufacturers, as well as helping new and prospective investors with everything they need to thrive in the county, allowing them to make the right decisions, potentially delivering significant cost savings and shortening lead times.

### OUR SERVICE TO YOU

Our service includes a manufacturing audit helping you understand where to focus energy or resource, with information on funding streams, networking opportunities and best practice groups. We also provide reshoring advice with access to tools and practical advice.

We can provide manufacturing organisations with Lean benchmarking information, capability gap analysis work and tailored recommendations to deliver productivity and growth. We will help identify ways to unlock hidden capacity and increase the output of your existing assets and manufacturing facility. We don't just share industry best practice, we broker introductions with exemplar manufacturers to share their experience.
